The Kingston Fibre Artists formed in 1997 to support and encourage creativity and innovation in contemporary fibre arts. Fibre Art is an artistic discipline which combines texture, colour, dimension and much more to make statements about our world and relationships. Our membership comes to fibre art from many disciplines; quilting, painting, weaving and collage to name a few. This diversity encourages experimentation and collaboration within the group and connects us to the broader creative community in Kingston. For more information, including a list of members and images of their work, please visit <http://kingstonfibreartists.ca/>

Art Threads 2018 is made possible by the generous support of the [Ballytobin Foundation](#).
